

To the Northlake Performing Arts Society,

With your donation, we were able to complete a second class set of the instruments so that our students can now check them out and take them home. We also don't have to worry about sanitizing between classes anymore since every student has their own instrument to play.

We had a little leftover and were able to get some extra strings for the ukuleles as well as a class set of sight-reading practice books which we have been using daily!

Attached are some pictures of the kids with their ukuleles. Both choir classes will also be working on performing a song for our virtual spring concert with some kids playing along on the ukuleles. I will forward you those videos as well in May.

I'd like to thank NPAS again from the bottom of my heart for your donation and dedication to promoting choral music in this area. My students and I are so appreciative of your support!

Thank you!
